I. Introduction and Background

History and Overview of Assessment

Mesa Community College (MCC) is committed to providing quality education for its students as evidenced in our institutional mission: “We create an inclusive and vibrant learning community where everyone is supported to achieve success.” The college recognizes the need for accurate assessment data to use in evaluating student learning and the effectiveness of the College in meeting its mission. MCC accepts the proposition that the value of assessment is found in the use of the assessment data to improve student learning.

MCC conducts student outcomes assessment at the institutional (ISLO), program/pathway (PSLO), and course (CSLO) levels. Assessment efforts are led via collaborative efforts of the Vice President of Academic Affairs (VPAA), Director of Assessment, Faculty Senate Student Outcomes Committee (SOC), and the Office of Institutional Effectiveness.

Starting in the late 1990s, MCC’s student learning outcomes were assessed college-wide through “Assessment Week.” In the Fall 2012, challenges in the assessment work were identified, motivating revisions to our institutional student learning outcomes and assessment method. SOC and Faculty Senate approved a revision of the general education outcomes to better focus on student success. MCC’s ISLOs became MCC’s 4Cs: Communication, Civic Engagement, Critical Thinking, and Cultural and Global Engagement, with each outcome having several criteria. MCC’s 4Cs uses standardized scoring guidelines assessment instead of standardized assessment test. This allows instructors to apply the assessment results to their course content and pedagogical practice.

In 2017, MCC developed Guided Pathways for its academic programs, which were adopted and expanded by the District in 2018. Each guided pathways program map includes Program-level Student Learning Outcomes (PSLOs).

In 2018, MCC hired an Assessment Director to lead the collaborative development and implementation of a comprehensive plan for assessing student learning outcomes at the course, program, educational pathway, and institutional levels.

Organizational Structure for Assessment

Assessment efforts are led via collaborative efforts of the Vice President of Academic Affairs (VPAA), Director of Assessment, Faculty Senate Student Outcomes Committee (SOC), and the Office of Institutional Effectiveness.

The Student Outcomes Committee is composed of faculty from many disciplines, and confers regularly with the Faculty Senate. The Assessment Director, and the Dean and Director of OIE serve on the committee to ensure that assessment processes and methodologies reflect good practice, including adherence to guidelines for ethical research. Since 2015, a primary focus of SOC has been the assessment of the Institutional Student Learning Outcomes (ISLOs), MCC’s 4Cs.

The Assessment Director leads the development and implementation plan for the assessment of student learning at the course, program/pathway, co-curricular and institutional levels. The Assessment Director works and collaborate with faculty, administrators, the Center for Teaching and Learning (CTL) and OIE to develop an assessment plan and promote a culture of assessment at MCC. The Director of Assessment works with and support the Student Outcomes Committee and Department Assessment Coordinators (DACs) on assessment efforts at MCC.

MCC’s process to assess student learning has engages full-time and part-time faculty through regular meetings of the committee, and through the participation of many academic and occupational faculty events.

II. MCC's 4Cs Development Process

The process began by following the informed improvement strategy. Each of the original student learning outcomes and descriptors were reviewed and evaluated. Common descriptors were eliminated while at the same time linking the new outcomes to the college's Vision, Mission and Value (VMV) statements. The linkage to the MCC's VMV insured fluid integration of institutional student learning outcomes into the college plan. MCC's 4Cs were created: Communication (CO), Critical Thinking (CT), Civic Engagement (CE), and Cultural and Global Engagement (CG).

Groups were formed for each outcome; faculty from both Southern and Dobson and Red Mountain campuses were invited, and participated, in the development of the outcomes clear definitions, the criteria to assess it and scoring guidelines. Scoring guidelines were patterned after the Association of American Colleges and Universities (AACU) and Valid Assessment of Learning in Undergraduate Education (VALUE) rubrics. On December 5, 2013 MCC's 4Cs were adopted by unanimous approval from Faculty Senate. MCC's 4C's development process shown below:

CULTURAL EXPRESSION: Generates ideas, creations, or models that express the human condition and one’s relationship with the world</p>

Revised AY 2017-2018

III. Methodology

During the semesters of Fall 2021 and Spring 2022 (AY 2021-2022), SOC invited all residential, one year only, one semester only, and adjunct faculty to participate in MCC's 4Cs assessment. SOC members promoted participation in assessment activities, lead faculty through the assessment process, and provided guidance in the creation of a signature assignment aligning to the scoring guidelines.

Faculty participants identified a 'C' that best aligned with their course. The faculty chose an assignment within their course that aligned with all criteria of the chosen outcome. Faculty attached the 'C' scoring guidelines to the course assignment in Canvas. Using Canvas students assessed in a 'C' were given a rate of Levels 0 through 4, with level 4 being the highest level of achievement. The data collected in Canvas for each semester was exported, combined into one dataset, aggregated and analyzed using Excel, MCCCDC Institutional Research Information System (IRIS), and IBM SPSS Statistics.

College level and course level 'C' averages were calculated. The average scores range from zero to four, with four being the highest level of achievement.

The scoring guidelines were revised in AY 2017-2018 and implemented Fall 2018. Some faculty used the newly revised scoring guidelines and others used the prior set of scoring guidelines. When reporting average scores, only data from the new scoring guidelines were analyzed.

Data Collection Procedures

78 faculty members volunteered to administer MCC's 4C's assessment in a total of 244 sections at Southern and Dobson, Red Mountain, Online, Downtown and Offsite during AY 2021-2022. Faculty administered all assessments in regular class sessions during each semester.

Administration of the assessment occurred during the regular classroom period. Faculty utilized an assignment which had already been created or they created a new assignment that best aligned with one of the MCC's 4Cs. Students were informed that the purpose of the assessment was to measure whether education goals are being achieved in order to improve programs and student learning at MCC.

Faculty administered and scored the assessments using Canvas by the end of each semester. At the end of the semesters, OIE exported an Outcomes Report from Canvas into Excel. The reports contained student names, course name, section number, learning outcome, outcome score, and title of assignment. The exported data was used to match each student's assessment with exact demographic and course data using IRIS.

Analysis Highlights

- 2,235 students were assessed, completing 3,025 assessments in 74 courses by 17 departments
- 44 residential and 34 adjunct faculty administered the assessments in 274 sections
- 261 students were assessed in Civic Engagement
- 1,393 students were assessed in Communication
- 803 students were assessed in Critical Thinking
- 343 students were assessed in Cultural and Global Engagement

V. Results and Observations

Overall Results

Students may have been given an MCC's 4Cs assessment in more than one course, therefore, the # of students in each table in this section of the report are a duplicate count of students. Table 4 provides the departments, the number of instructors, number of courses, number of sections and the number of students assessed AY 2021-2022. Instructors may have taught for 1 or more departments; therefore, the # of instructors are duplicated in Table 4.

Civic Engagement

Definition

Civic Engagement: Civic engagement encompasses actions to promote the quality of life in a community, through both political and non-political processes.

Descriptors

1. INCLUSIVENESS: Demonstrate an ability to engage respectfully with others in a diverse society
2. APPLY KNOWLEDGE: Apply knowledge from one's own study and experiences to active and ethical participation in civic life
3. DEMONSTRATION OF CIVIC IDENTITY AND COMMITMENT: Provide evidence of experience in and reflection on civic engagement activities
4. CIVIC COMMUNICATION: Communicate and listen to others in order to establish personal and professional relationships to further civic action
5. ENGAGEMENT IN CIVIC ACTION AND REFLECTION: Demonstrate the ability to deliberate and collaborate on issues and problems to achieve a civic aim

Civic Engagement Results

Table 9 shows the college-wide Civic Engagement learning outcome score for AY 2021-2022. In calculating the average score, blanks were given a score of zero. Therefore, the average score is on a scale of 0 to 4, with four being the highest level of achievement.

Chart 2

- 86.6% of Civic Engagement assessments were rated at Level 4 or Level 3
- CE5: Engagement in Civic Action and Reflection, assessed more students at Level 4 (13.2%) than the other descriptors assessing at any other Level
- All descriptors assessed most student assessments at a Level 4

Communication

Definition

Communication: The purposeful development, expression and reception of a message through oral, written or nonverbal means. See Appendix A for Scoring Guidelines.

Descriptors

1. PURPOSE: Establish a clear central focus for a message which demonstrates an understanding of context, audience, and task
2. CONTENT: Develop appropriate, relevant content logically sequencing ideas and/or information
3. LANGUAGE: Apply language and/or modes of expression of a discipline in an appropriate and accurate manner to demonstrate comprehension
4. EXECUTION: Convey a message effectively

Communication Results

Chart 3

- 69.0% of Communication assessments were rated at Level 4
- CO1: Purpose, assessed more students at Level 4 (18.5%) than the other descriptors assessing at any other Level
- All descriptors assessed most student assessments at a Level 4

Critical Thinking

Definition

Critical Thinking: Habit of mind of analyzing issues, ideas, artifacts, events, and/or evidence to draw conclusions or solve problems.

Descriptors

1. Identify the topic/ subject of inquiry
2. Select appropriate resources required to draw conclusion(s) or solve the problem
3. Apply resources to draw conclusion(s) or solve the problem
4. Evaluate conclusion(s) or the solution to the problem

Critical Thinking Results

Table 11 shows the college-wide Critical Thinking learning outcome score for AY 2021-2022. In calculating the average score, blanks were given a score of zero. Therefore, the average score is on a scale of 0 to 4, with four being the highest level of achievement.

- 45.2% of Critical Thinking assessments were rated at Level 4
- CT1: Identify, assessed more students at Level 4 (12.6%) than the other descriptors assessing at any other Level
- All descriptors assessed most student assessments at a Level 4

Cultural and Global Engagement

Definition

Cultural and Global Engagement: Global Learning encompasses knowledge, skills, and attitudes students acquire through a variety of experiences that enable them to understand world cultures, analyze global systems, appreciate cultural differences, and apply this knowledge and appreciation to their lives as educated individuals and global citizens.

Descriptors

1. KNOWLEDGE: Analyzes cultural systems, events, or creations and their relationship to worldviews, values, or behavior.
2. INFLUENCES: Evaluates the impact of contemporary and past events, perspectives, or cultures on intercultural relationships.
3. SELF AWARENESS: Analyzes the impact of culture and intercultural experiences on one's worldview, values and behavior, including assumptions, biases, prejudices, or stereotypes.
4. RESPONSIBILITY: Evaluates the impact of one's moral and ethical reasoning on one's actions in relation to culturally different groups.
5. CULTURAL EXPRESSION: Generates ideas, creations, or models that express the human condition and one's relationship with the world

Cultural and Global Engagement Results

Table 12 shows the college-wide Cultural and Global Engagement learning outcome score for AY 2021-2022. In calculating the average score, blanks were given a score of zero. Therefore, the average score is on a scale of 0 to 4, with four being the highest level of achievement.

VI. Indirect Measures of Student Learning

In addition to the direct measures of the achievement of student learning provided by evaluating the results of the assessments administered to students annually, several indirect measures of student learning are collected at the college. These indirect measures provide further evidence of student learning; results from several indirect measures are presented in this section.

Course Completion

Data about course completion is provided for Fall semesters in Table 17. The percentages of successful/unsuccessful students completing a course and those withdrawing from a course have remained relatively stable.

Term to Term Retention

Term to term retention (sometimes called persistence) is a measure of how many credit students return to college in the future semesters. Students who graduated/earned an award prior to returning the following semester are excluded from the original cohort and following terms. Below is the Fall 2021 to Spring 2022 retention rate.

Table 14

	Fall Cohort 2021	Fall to Spring Retention	Fall to Spring Retention Rate
All Students	14,941	8,696	60.3%
Grand Total	14,941	8,696	60.3%

Degree and Certificate Awards

MCC conferred 1,815 degrees and 1,973 certificates in 2021-22.

Licensure and Certification

Students in Dental Hygiene, Fire Science, Mortuary Science, Network Academy, Nursing, and Veterinary Technology programs are able to receive licensure from outside licensure bodies after their studies at MCC. Data on licensure is presented below for these programs.

Dental Hygiene

Dental hygiene students take a national written exam, a regional practical and written exam, and a state written jurisprudence exam. Students must pass all exams in order to obtain a license to practice. Results are obtained from the national and regional examining bodies.

Chart 13

Fire Science and EMT

The MCC Fire Science program offers certification in several areas as detailed in Tables 21-22 (last updated 2018). The Fire Fighter I and II Certification and the Hazardous Materials First Responder are both granted by the Arizona State Fire Marshall's Office. The actual success rate of attainment of the certificates may be underestimated because only the initial attempt at passage is reported back to the college. Students have three chances to pass the certification.

Network Academy

The Network Academy offers certification pathways in Network Administration, Network Security, Microsoft, Red Hat Linux, VMware, Information Assurance, and Workplace Skills. Training formats include fast tracks, traditional semesters, distance learning, and internet deliveries. Network Academy students earn industry certification after completion of the program; however, there is not a formal mechanism for reporting certifications back to the program.

Nursing

Nursing students who complete a four semester curriculum and receive the Associate of Applied Science degree are eligible to take an exam to become licensed through the National Council of State Boards of Nursing Examination for Nursing (NCLEX RN) licensure exam; pass rates are detailed in Table 23 below.

Table 23

Veterinary Technology

Graduates of the MCC Veterinary Technology Program are required to complete two semesters of prerequisite coursework in order to qualify to formally apply for admission to the Program proper. After a selective admission process, the Program proper consists of a five-semester curriculum leading to the Associate of Applied Science in Veterinary Technology/Animal Health. Graduates are immediately eligible to “sit” for the Veterinary Technician National Examination (VTNE) and the Arizona state Veterinary Technician certification examination. The VTNE is administered by the Professional Examination Service, and the state certification examination is administered by the Arizona State Veterinary Medical Examining Board. Upon passing both the VTNE and the state certification examination, the successful candidate is granted certification as a Certified Veterinary Technician by the state of Arizona.

Welding

Welding students who are on the path to gain a Certificate of Completion (CCL) in Welding develop skills in oxyacetylene (gas) and electric (arc) welding. The CCL in Welding has an emphasis on preparing students for the American Welding Society Arc certification exam.

The number of MCC students receiving the AWS Welding Certifications since 2012 are shown in Chart 14.

Chart 14

Industry welding certifications students received include:

- SMAW Plate
- FCAW Plate
- GMAW Plate
- GTAW Aluminum Sheet
- GTAW Stainless Steel Sheet
- GTAW Carbon Steel Sheet and
- GTAW/SMAW Pipe Certifications
