

Meet our desert critters

In recognition of the Maricopa County Community College District's 50th anniversary, Mesa Community College will host a Meet and Greet the Animals of the Sonoran Desert from 7 to 8 p.m. Friday at the Red Mountain Campus, Saguaro Building, 7110 E. McKellips Road.

Dennis Wilson, MCC biology faculty member, will explain the role each animal plays in our everyday life and how we can mutually share the desert environment. Visitors can meet the animals up close.
