Nuvocomp Becomes Nimble Storage Authorized Solutions Provider

By PR.com

Prescott, AZ, October 25, 2016 –([PR.com](#))– Nuvocomp today announced it has joined the Nimble Partner Program as a Value-added Reseller. Nimble Storage is the leader in predictive flash storage, enabling customers to experience absolute performance, non-stop availability and cloud-like agility that accelerate critical business processes. The Nimble Storage Predictive Flash platform offers All Flash arrays and a series of Adaptive Flash arrays - all of which are supported by InfoSight Predictive Analytics.

The Nimble Predictive Flash platform provides fast, reliable access to data. By combining predictive analytics with all flash storage, Nimble frees businesses from infrastructure constraints. Over 9,000 customers use Nimble for their on-premises private clouds, SaaS and managed services. The Nimble Predictive Flash platform combines the All Flash and Adaptive Flash arrays into a single consolidation architecture with common data services. Since Nimble All Flash and Adaptive Flash arrays run the same NimbleOS, and management and functionality are identical, arrays can be seamlessly clustered and managed as a single entity. InfoSight Predictive Analytics predicts and prevents performance issues across the infrastructure stack before they occur.

Accelerating productivity

IDC. Forrester. Gartner's 2015 Magic Quadrant for Wired/WLAN.

All 3 recognize HPE as a leader in wireless networking.

"Having Nimble Storage as part of our portfolio enables us to deliver a combination of fast, reliable data storage with the power of predictive analytics," said Robbin Gatling, vice-president of Sales at Nuvocomp. "Having sold legacy storage products in years past, we're on a quest to educate customers on the incredible benefits that Nimble Storage can immediately bring."

"At Nimble Storage, we are committed to providing our partners with a combination of best-in-class storage solutions and comprehensive enablement resources, which we believe will prove invaluable in bringing the Nimble Predictive Flash platform to enterprises worldwide," said Leonard Iventosch, vice president of worldwide channel sales at Nimble Storage.

"We know that the success of our organization is dependent on our partners ability to successfully and independently sell our products and solutions. Because of this, we've fostered a global network of partners to provide enterprises access to our innovative storage solutions."

"We are very impressed with the Nimble technology and see it as one of the leading platforms for the future," said Sasan Poureetezadi, CIO for Mesa Community College.

Nuvocomp is headquartered in Prescott, AZ and is focused on delivering solutions to data storage, management and protection problems faced by today's businesses. The company's founder, Brenda Gatling, is a disabled Navy vet and is committed to helping businesses and agencies see how they can benefit from implementing contemporary data storage technology.
